EXPERIENCE

- Software Engineer 2** Gurugram
Lyearn Oct 2025 – Present
 - Productivity Measurement System:** Engineered an employee productivity measurement system using **OpenAI** and **Lyearn Workflows** to evaluate employee productivity based on workplace activities.
 - AI-Driven Roleplay:** Built an AI-powered virtual roleplay system using **ElevenLabs**, **Lyearn Knowledge Base**, and **OpenAI** to simulate mock interviews, customer interactions, and client management scenarios.
 - Widget-Based Homepage:** Implemented a fully customizable widget-based homepage that enabled clients to tailor dashboards to their business needs, including deployments for **HDFC**, **Blinkit**, **Belcorp**, and **UnifyApps**.
 - AI-First Course Builder:** Designed multiple guardrails for the **AI Course Builder**, including future-step invalidation, dynamic course structure updates, and AI-powered autofill logic.
- Software Engineer** Noida
Imarticus Learning Apr 2023 – Oct 2025
 - AI-Powered Exam Proctoring System:** Engineered an automated proctoring system using **AWS Liveness**, **Face Recognition**, and **Face Comparison** to verify student identity and prevent cheating, with automated checks every two minutes to ensure exam integrity at scale.
 - Virtual Machine Lab:** Implemented a platform enabling instructors to provision **pre-loaded virtual machines**, improving students' hands-on learning experience and contributing to a **60% increase in profitability**.
 - Free Courses Feature:** Launched a scalable platform offering free course access, attracting over **50,000 student registrations** and significantly increasing user engagement and brand reach.
 - Imarticus Learning National Employability Test:** Created a high-traffic assessment platform supporting free employability tests, helping more than **50,000 students** connect with job opportunities through skill-based evaluations.
 - Channel Partner Portal:** Developed the **core enterprise portal** for partner onboarding, lead generation, and invoicing, directly contributing to **30% of the company's total revenue**.
 - Email Delivery Logs:** Integrated **AWS SNS** to monitor email delivery and bounce events, reducing bounce rates to **1%** and improving the reliability of email communication.
 - Deep Linking:** Integrated deep linking across **Android**, **iOS**, and the web, increasing app engagement by **30%** while reducing user drop-offs by **10%**.
 - Agreements Management System:** Streamlined agreement workflows by enabling digital signatures for teachers and students, reducing manual processing time to under one minute and improving the overall user experience.

SKILLS

- Programming Languages:** TypeScript, JavaScript, Java
- Frontend Technologies:** React, Next.js, HTML5, CSS3, Bootstrap, Material UI
- Backend Technologies:** Node.js, Express.js, GraphQL, CI/CD, Docker, Travis CI
- Databases:** MongoDB, MySQL, Redis, Couchbase, ClickHouse, Firebase
- Cloud & Tools:** AWS, DigitalOcean, Git, GitHub, BigQuery, Looker Studio, Postman
- Core CS:** Data Structures and Algorithms, Object-Oriented Programming

PROJECTS

- PropShop: E-commerce Web Application** Dec 2021 – Mar 2022
Project Link: prop-shop.onrender.com *GitHub:* [nimishbhandari/mern_shop](https://github.com/nimishbhandari/mern_shop)
 - Tech Stack:** React, Node.js, Express.js, MongoDB, Redux, HTML5, CSS3, JavaScript
 - Description:** Built and deployed a scalable e-commerce platform supporting over **1,000 transactions** during its initial launch while eliminating manual order management.
- DevMeet: Social Media Platform** Jun 2021 – Nov 2021
Project Link: devmeet-ic00.onrender.com *GitHub:* [nimishbhandari/devmeet](https://github.com/nimishbhandari/devmeet)
 - Tech Stack:** React, Node.js, Express.js, MongoDB, Redux, HTML5, CSS3, JavaScript
 - Description:** Created a full-stack social networking platform enabling users to connect, share interests, and interact through posts while incorporating robust CRUD operations and JWT-based authentication for over **1,500 users**.

EDUCATION

- Madan Mohan Malaviya University of Technology** Gorakhpur, India
Bachelor of Technology (B.Tech.) in Electronics and Communication Engineering GPA: 7.3 Jul 2019 – Jun 2023
